It is essential that NASA (National Aeronautics and Space Administration) continue to be involved in space exploration, or Private companies will ensure that enough progress is made in space exploration, even without NASA's involvement?.....	52
Q38A. Do you think each of the following things will or will not happen in the next 50 years, that is, before the year 2074? People will routinely travel in space as tourists.....	53
Q38B. Do you think each of the following things will or will not happen in the next 50 years, that is, before the year 2074? People will build colonies that can be lived in for long periods of time on other planets.....	54
Q38C. Do you think each of the following things will or will not happen in the next 50 years, that is, before the year 2074? Debris in space from rockets, satellites and other human-made objects will be a major problem.....	55
Q38D. Do you think each of the following things will or will not happen in the next 50 years, that is, before the year 2074? The United States military will fight against other nations in space.....	56
Q38E. Do you think each of the following things will or will not happen in the next 50 years, that is, before the year 2074? Intelligent life will be discovered on another planet.....	57
Q39. In the future, private companies expect to allow people to orbit the Earth in a spacecraft. How much, if at all, would you, personally, be interested in doing this?.....	58

TEXAS LYCEUM POLL

2024 Texas Statewide Survey Crosstabs

Methodology

From April 12-21, 2024, The Texas Lyceum conducted a 1000-person telephone survey of adult citizens from the state of Texas. The survey utilized a stratified probability sample design, with respondents being randomly selected at the level of the household and questioned by live interviewers. The survey also employed a randomized cell phone supplement, with 60 percent of completed telephone interviews being conducted among cell phone only or cell phone dominant households. A Spanish-language instrument was developed, and bilingual interviewers offered respondents a chance to participate in English or Spanish. On average, respondents completed the interview in 12 minutes. To ensure an appropriate sub-sample of unregistered citizens, a supplement of 200 interviews among Texas adults confirmed as unregistered was completed online. This yields a total statewide sample of 1,200 adults, 926 of whom are registered voters according to self-reports. The final data set is weighted to the joint distribution of race/ethnicity, age and gender to achieve representativeness as defined by the Texas State Demographic Center 2022 population estimates. The overall margin of error for the poll is +/- 2.83 percentage points, with a larger margin of error for sub-samples.
